

## 4TH ANNUAL **HUNTER MORRIS** CHARITY GOLF TOURNAMENT

### **About Hunter and Eosinophilic Enteropathy**

Imagine never eating again! This is a reality for thousands of people who, like Hunter Morris, have Eosinophilic Enteropathy. Hunter is a 4 1/2 year old boy who has this digestive disorder, in which eosinophils, a type of white blood cell, are found in above normal amounts in the digestive tract. At this time, there is no cure for the disorder and diagnosis and treatment are difficult and expensive. Many who suffer from this disorder are forced to eat a restricted diet and/or drink elemental formulas containing no whole food proteins. In some cases, the sufferer needs to be fed via a feeding tube or blood vessel feeding.

Through the efforts of the Hunter Michael Morris Fund and people like you, Hunter has gotten top notch treatment and at this time is doing very well. However, since this disease is a life-long one, with no known cause and no cure, it could flare up at any point and Hunter could return to having to eat little or no foods and being formula dependent. His life and well being is still very much dependent on the continued treatment and careful monitoring of this disease.

It is the goal of this event to raise money for the Morris Family in order to ensure that Hunter will receive the best possible care to enable him to develop to his fullest potential. By providing these funds to the Morris Family, we are allowing them to focus on caring for Hunter and not on how they will pay for his ongoing treatment.

The Hunter Michael Morris Fund is also set up so that, should Hunter get well enough to not need constant and costly treatment, the Fund can help other children afflicted with this potentially devastating disorder. You truly can make a difference in the life of a child—or children—affected by this disorder.

We ask for your support by purchasing one, four, or more tickets to our outing. If you are unable to attend our outing, you can be a hole sponsor, dinner sponsor, or just donate what you can afford. Every dollar raised will help make a difference in the life of Hunter and his family, and possibly other families affected by this disorder. All monies raised will help to ensure that Hunter, and children like Hunter, are able to lead healthier and fuller lives. Thank you for your continued support and we look forward to seeing you at the outing!
